## ABOUT

I am a full stack developer with graphic design experience. I have been building projects in my free time using mostly JavaScript, React, Redux and Node.js. But I have taken classes in other languages in the past and am always up for learning new technologies! I would love to join a team where I can contribute and grow as a developer full time.

## CODING PROJECTS

### LUNCH AND A LAUGH

**DEMO:** [whatthespud-d726f.firebaseio.com](https://whatthespud-d726f.firebaseio.com)

This is an application that is still in progress. It allows users to view and add recipes for potato dishes. This project is being built using HTML, CSS, React and Firebase.

## WORK HISTORY

### SENIOR GRAPHIC DESIGNER

DW Green Co. | Tempe, AZ | 2009 - present

### SENIOR GRAPHIC DESIGNER

Vertis | Phoenix, AZ | 2004 - 2009

Started as a production artist and worked up to a senior designer. Duties at both companies: design print ads, e-blasts, signage, brochures, and more in a fast-paced environment, communicate with clients and printers, proofread, work individually and on a team to prioritize workload, delegate work to production artists and provide tips and instruction to help ensure the ads are consistent and conform to brand standards.
